President Miller’s response to proposed Revisions to CCSU Objectives (Grasso)

Hand out on President Miller’s suggestions

The only three items the committee wishes to revisit are Objective 2.5, Objective 3.6 (the new 3.5) and Objective 4.6.

**Objective 2.5:** The committee was informed by Braden Hosch of the recent publication of the report *Academic Advising Quality Metrics from the National Survey of Student Engagement (2010)*. UPBC believes that this is an appropriate methodology for assessment as requested in the memo.

**Objective 3.6 (the new 3.5):** UPBC apologizes if the intention of this change was misunderstood. The intention, based on the recorded changes the UPBC has in place from March 2010, was to strike the words “Increase the” and replace with the word “Maintain”. The committee has not suggested replacing Objective 3.6.

**Objective 4.6:** UPBC revisited the data with Braden Hosch, and there are indicators showing that CCSU is declining in this area. UPBC would now recommend that we keep Objective 4.6 in place to provide University support in maintaining our life-cycle funding model for technology.

UPBC agrees to differ to the President on the remaining items that were in question.
