Principles intended to narrow choices in initiative design, offer direction during “forks in the road”

Maintain core focus on student interests — operate with a “student first” mentality

Act in alignment with the vision, mission, and goals of CSUC

Balance the need to maintain local institutional identity and missions with the opportunity to strategically leverage collective resources within the system

Actively seek to enhance effectiveness and efficiency across the system

Provide transparency and ensure stakeholders have a voice in the process

Maintain the need to be positioned for growth and able to respond nimbly to changing context
