

CCSU POLICY: LACTATION ROOMS

Public Act No. 01-182, An Act Concerning Breastfeeding in the Workplace, requires that employers make reasonable efforts to provide "lactation rooms" with privacy for employees.

To that end, the following locations on campus have been identified for this purpose:

- the Women's Center located in the Student Center; and
- the second floor faculty lavatory in DiLoreto Hall.

Small refrigerators and comfortable chairs have been placed in these areas. We have attempted to provide as much privacy as possible.
