TELEVISION IN YOUR RESIDENCE HALL

Selecting Your TV
Your digital television must have a QAM tuner to work with the schools cable service. You should verify that your television has a quality QAM tuner before you bring your TV to campus. Go to www.campustelevideo.com/customercenter/ for a list of televisions that have been reported to not have QAM tuners.

Connecting Your TV
Simply connect your TV to the wall jack with a standard coaxial cable. You will then need to run a channel scan on your television to recognize new channels. Channel scans are generally found by selecting Menu → Set-up → Antenna → Cable → Auto program/Auto tune/Channel scan.

Channel Guide
For TV Listings, go to www.Zap2it.com/tvlistings. Enter your zip code to locate the TV listings specific to your school.
