MS Technology Management Program Student Learning Outcomes

Student Learning Outcomes (SLO) are narrower statements that describe what students are expected to know and be able to do by the time of graduation from the program. These relate to the skills, knowledge, and behaviors that students acquire in their matriculation through the program.

MSTM Student Learning Outcomes

Graduates of the MS Technology Management Program will be able to:

1. Demonstrate the knowledge required to manage the life cycle of a product or service.
2. Show knowledge of the management of operations, including resource planning and continuous improvement.
3. Display the knowledge necessary to create a “Lean” working environment.
4. Exhibit the knowledge required to be an innovative leader and manage a diverse workforce, and lead project and problem solving teams.
