B.S. Nursing
Learning Outcomes

The program outcomes reflect what the baccalaureate nursing student should be able to do by graduation as identified by the *Essentials of Baccalaureate Education for Professional Nursing Practice* (2008).

By graduation, the student will be able to:

1. Integrate theories and concepts from liberal education into nursing practice.

2. Apply leadership concepts, skills, and decision making in the provision of high quality nursing care, healthcare team coordination, and the oversight and accountability for care delivery in a variety of settings.

3. Critically evaluate evidence-based research in collaboration with other members of the healthcare team to improve patient outcomes.

4. Demonstrate skills in using patient care technologies, information systems, and communication devices that support safe nursing practice.

5. Advocate for a variety of socio-political issues affecting health care through participation in legislative and political forums.

6. Incorporate interprofessional communication and collaborative skills into the delivery of evidence-based, culturally sensitive patient-centered care.

7. Provide innovative interventions to promote health and prevent illness in vulnerable populations.

8. Practice from a caring, professional nursing perspective by incorporating the values of social justice, diversity, and global awareness.

9. Integrate knowledge, skills, and attitudes through use of the nursing process to provide patient-centered care to patients across the lifespan from a diverse perspective.
