One of the strongest philanthropic desires is for the commemoration of a name in enduring form. Commemorative gifts are important to any institution. At Central Connecticut State University they have special significance because they express our heritage and keep alive the memory of those who have helped make the University a center of educational excellence. Individuals, families, corporations, and foundations are invited to subscribe for commemorative designations. Upon fulfillment of the gift commitment, the University will display a plaque or other appropriate commemorative designation with the name of the donor or of a loved one, family member, or friend. To discuss naming opportunities at Central Connecticut State University, please contact Chris Galligan, Vice President, Institutional Advancement at (860) 832-1764 (direct) or email galligan@ccsu.edu.
