SEPS Cur. Sub-Com. Minutes—November 6, 2018

Beth:
• In reference to MTH 102 and 103—share what happens with curriculum committee with department
• MTH 102 and MTH 103 are replacing MTH 101
• Students cannot receive credit for both courses—if they took MTH 101 then they will not get credit for 102 or 103; they only take 102 or 103 if they failed 101
• This goes for anytime a previous course has been replaced; students will not get credit for taking both courses if students have already met the requirement of the course being replaced

Approval of minutes from previous meeting, October 4th
• Jim moves to approve, Joan seconds
• All approve

EDEC
• Candance—do these as a package—program courses as a package
  o Program change
    ▪ Recommendations made based on prior submissions and from the State department; program encompasses infant-toddler mental health; brings in more transfer students rather than being a road block
    ▪ Changes in course curriculum—most revisions are similar to current courses, to enhance the language and focusing on the topic of infant toddler mental health—course descriptions; explicit to infant-toddler mental health
    ▪ Pre-req and co-reqs have been removed
    ▪ Jim approves to move for approval of program and all course changes as a package; Michael seconds
    ▪ Vote: All in attendance in favor

PSYS
• Change in pre-req for a co-req in courses
• On SEPS agenda because PSHS BS Ed Majors—secondary ed are required to take the course
• Michael moves to accept the changes; Jim second
• Vote: All in favor of the change

SPED
• Attached to EDEC
• Integral to the program with a different designator
• Vote to add to the EDEC package
• Vote: All in favor
**TE**
- Program changes, take as package—vote Michael moves to take as package, Leanne seconded; All agree to take as a package
- The changes include
  - Adding TE 150
  - TE 350—reduced credits from 130 to 120—allows for getting current topics in STEM into the program
    - Need to put in language that student can retake the course—opted not to add to the language, so they will not be able to retake?
    - Thinking of retaking but then students would have to take something out and there is no room to take an “extra” course
  - TE 399—Existing course, minor changes in description and what we do in the course
- Program change allows the program to put in place
- All approve to

**CHEM 161**
- Mary Pat—issue with the minor change and department agreed will put in for a course change
- MTH 103 as the pre-req for CHEM 361
- If students took MTH 102 this will be allowed this spring
  - Nursing and PE

Meeting adjourned: 1240
