If you have used Turnitin before, your old e-mail and password still work (in fact, your expired classes are still there so that papers turned in this semester will be checked against papers from previous semesters).

If you have not used Turnitin, follow these steps.

(1) In your web browser, go to www.turnitin.com
(2) Under the “Login” prompt, click “Create an Account.”
(3) Look for the instructions under “New Instructors start here.”
(4) #3 in the list provided for the “New Instructors start here” prompt says “Create a profile.” Click that link.
(5) Scroll down to “Create a New Account.”
(6) Under “Create a New Account” click on “instructor”
(7) For the "account id" and "join password" please contact The Instructional Design and Technology Resource Center at IDTRC@ccsu.edu or 860-832-2081
(9) Fill in the other requested information, and you've got your account. The instructions are clear and easy to follow. Many of our students are already familiar with Turnitin and will know how to upload their papers.

For those of you who are new to Turnitin, this is a site that allows students to upload their papers directly from their computers, and it allows faculty members to comment on and grade those papers from their own computers. You may ask for a printed copy of the paper if you wish, but this can also be a "paperless" way to assign and grade student papers.

After you have established your account, sign in on the homepage (www.turnitin.com) with your email address as the Login and the personal password you provided in your user profile. Click the red “Sign In” button. To get started, click the green “+” marked “add a class” and follow the prompts.
