Greetings!

As you plan to attend your Academic Advising and Registration Day, we encourage all first-year students to also plan to take their Mathematics Placement Exam on that same day. Your SAT Math score is used to determine your eligibility for your first math course. If you believe that you are prepared to take a higher level math course than what your SAT Math score indicates, you should take the Math Placement Exam. We highly encourage all first-year students to take this Placement Exam, even if you are currently enrolled in a mathematics course during your senior year of high school. Please review the table below to determine your eligibility for certain Math or Statistics courses at CCSU (also found in your First Year Guide):

<table>
<thead>
<tr>
<th>Level</th>
<th>SAT Math Score</th>
<th>You are eligible for these math or statistics courses at CCSU</th>
</tr>
</thead>
</table>
| A     | 450 or below   | MATH 099: Elementary Algebra 
Review of fundamental algorithms of whole numbers, integers, rational numbers, and elementary algebra. |
| B     | 460 to 490     | MATH 099: Elementary Algebra 
OR YOU MAY CHOOSE TO TAKE 
MATH 101 Combination, a course that combines the content of MATH 099 with the content of MATH 101 |
| C     | 500 to 540     | MATH 101: Intermediate Algebra 
Review and extension of elementary algebra. A study of functions including their algebraic properties and graphs. Quadratic equations and inequalities are solved and graphed. |
| D     | 550 and above  | Math or statistics courses with MATH 101 as prerequisite, which may be determined by requirements of chosen major. |
| E     | 600 and above pre-calculus or calculus in high school with a grade of B or better | Math or statistics courses with MATH 101 or MATH 119 as prerequisite, which may be determined by requirements of chosen major. |
| F     | Advanced Placement exam credit for Calculus AB (equivalent to MATH 152) | Math or statistics courses with MATH 101, or MATH 119, or MATH 152 as prerequisite, which may be determined by the requirements of chosen major. |

The Learning Center will make mathematics placement testing available on ALL Academic Advising & Registration Days. Those students attending a morning session may take the Math Placement from 1:00pm - 3:00pm, while those students attending an afternoon session may sit for the Math Placement from 9:30am - 11:30am. All exams will occur in the Learning Center, unless otherwise noted. Students should reserve a seat as soon as possible by calling Natalie Ford at (860) 832-1900.
If you have yet to register for your Academic Advising & Registration Day, please review the information provided to you in your First-Year Guide to set up your CCSU BlueNet computer account and access the First-Year Student Registration Form. The purpose of the form is to provide your academic advisor with an idea of your strengths and areas of interest so that they may compile your schedule for the fall semester. You will have an opportunity to review this schedule at your Academic Advising & Registration Day. At the end of the form, you will be provided the opportunity to select your top choice among the days/times available for an Academic Advising & Registration Day.

Should you have any other questions about the Academic Advising & Registration Days, please visit the New Student Orientation website at www.ccsu.edu/studentaffairs/orientation, or call the Student Affairs office at (860) 832-1601.

Best,

Ramón Hernández
Assistant Dean of Students
