6/5/2009 RH
AlcoholEdu & Wellness Programs
Location: Alumni Hall, Student Center
Presenter: Tim Corbitt (Director, Counseling & Wellness)
The Counseling and Wellness staff will provide information on their services and programs. They will discuss their free and confidential services to full and part-time students. They also will address the aid they provide to students with depression, anxiety, relationship issues, drug and alcohol problems, eating disorders, gender issues, and many more.

Navigating the Billing System
Location: Bellin A & B, Student Center
Presenter: Tara Crescentini (Associate Director, Bursar)
This session will provide information regarding the different methods and systems of payment. You will be instructed on the on-line billing system used at Central Connecticut State University.

Engage in Experiential Learning
Location: Alumni Hall, Student Center
Presenter: Kenneth Poppe (Director, Career Services)
There are a number of students who are masters at playing the game; doing just enough to get by, attending class but not really participating, much less engaging within their career goals. This session will provide information on how students can be engaged in “Experiential Learning,” a process that allows them to personally connect their learning to the real world.

Information Technology
Location: Philbrick Camp Room, Student Center
Presenter: Amy Magno (Director, Student Support Services)
This session will provide the latest Information Technology (IT) being used at CCSU by students, faculty and staff. IT endeavors to empower the University community to accomplish their educational and administrative goals through the appropriate use of technologies. The first point of contact most students have with IT is through our Help Desk. If the Help Desk is not able to resolve their issue directly, their goal is to coordinate services with the appropriate area or with On-site Support. IT is here to recommend and provide pricing on all hardware and software purchases upon request.

The Health of Our Students
Location: Alumni A & B, Student Center
Presenter: Stephanie Szeman (Associate Director, Health Services)
This session will provide information on how University Health Services maintains and promotes the optimum physical and emotional health of the University community. We provide quality, accessible, comprehensive, and cost-effective health care, among many other services. In doing so, we hope to help support and maintain the success of each student while attending the University and provide them with life-long skills to become a full participant in his/her own health. Questions regarding student health insurance plans will be addressed in this session.

The Magic of the Blue Chip ID Card and On – Campus Banking
Location: Philbrick Camp Room, Student Center
Presenter: Card Office & Achieve Credit Union Representative
Learn how the CCSU Student ID (also known as the Blue Chip Card) has multiple purposes. The card, first and foremost, provides access to various campus locations and has a Blue Chip debit account automatically set up. With it, students can purchase meals anywhere on campus (and receive a 20% discount at certain locations on campus). These are just a few of the advantages of the Student ID card. Achieve Financial Credit Union is the CCSU on – campus banking partner. Credit Union staff will present information about services, including activating the Blue Chip ID Card as an ATM card.
