Returning to college after serving in the military can feel like dropping into another planet.

This course is designed to help vets reflect on what they have learned from their military experience and use that experience to build successful careers as college students.

This class introduces student veterans to a variety of campus resources.

Through these courses you will discuss:

- Learning Styles  
- Time Management  
- Stress Management

- Study Skills  
- Research & Writing skills  
- Note Taking

- Communication with faculty about learning needs  
- How to use life experience to strengthen learning in college

The class is small (generally 20-25 students) and meets your Skill Area I requirement or Skill Area IV requirement.
