Do you have a Disability?

CCSU Provides Your Bridge to Academic Success and Beyond!

Student Disability Services

Students who have documentation of a disability are eligible for reasonable accommodations at CCSU. There are additional services on campus that you can access as outlined here, all of which will work together to meet your needs.

All services described in this brochure are confidential.

If you think you have a disability and need accommodations, contact Student Disability Services as soon as possible.

As soon as you are accepted, it is important to register with Student Disability Services.

How to register?
Schedule an appointment with Natalie Byers before the semester begins and ask any questions that you may have.

What will I need?
Bring your documentation of disability to Natalie Byers, Coordinator of Student Disability Services. Documentation must be from a Licensed or Certified Professional, such as a neuro-psychologist, M.D., neurologist, psychiatrist, or audiologist.

Student Disability Services Overview Process

After course registration, complete the REQUEST TO NOTIFY INSTRUCTORS OF ELIGIBILITY FOR REASONABLE COURSE ACCOMMODATIONS form. Return it to the Student Disability Services Office with a copy of your course schedule attached. This form can be found online at: www.ccsu.edu/LearnCtr/disability/Attachment.pdf

The Student Disability Services Office evaluates the requested accommodations and generates letters to faculty that provides suggestions for accommodations.

- Pick up accommodation letters during the first week of class from the Student Disability Services Office. All students must make arrangements for accommodations within the first 2 weeks of class.

- Students must meet with each professor to engage in an interactive process to determine appropriate and reasonable accommodations for each course.
